EAN CODE

The EAN Code, if not other declared, is built like the following description:

90	02588	12345	1
Country code	Schuller-Code	article number	checking number

In our article columns are only the article number and the checking number quoted.

SB

THE ABBREVIATION SB

This abbreviation means that the product has a self-describing packaging. This includes the necessary product information, the distributor, the article number and also the EAN13 Code.

IMPRINT

Owner and editor:
Schuller Eh'klar GmbH
Im Astenfeld 6, 4490 St. Florian
Printing: Friedrich Druck & Medien GmbH
Edition: 01.2021

Illustrations, technical data, weight-, dimension-, colour- and product descriptions are non-binding. The reproduction, a partial reprint or the imitation, a copy and the forwarding of the illustrations and the design elements are strictly prohibited. We reserve the rights to change the model/design or make other modifications during the catalog is valid. The change will be fluently. Mistakes and printing errors are reserved.

BASIC INFO BRUSHES

WALL PAINTS Every brush marked with this pictogram is suitable for the common mineral and dispersion paints.

LACQUERS All brushes in this category are suitable for water-, synthetic resin, and acrylic-based paints and lacquers

VARNISHES Every brush marked with this pictogram, is suitable for all transparent and translucent coatings for timber.

OIL PAINTS Every brush marked with this pictogram is suitable for oil-based paints and anti-rust primers.

RATING There is a rating scale with squares at the above mentioned materials. The more squares are filled with gray colour, the better the product is suitable for the material.

NATURE Pure nature bristles

MIXBRISTLE a blend of natural bristles and synthetic bristles

SYNTHETIC Pure synthetic bristles

TEMPERATURE RESISTANCE

This number indicates the maximum application temperature. There is also a temperature range given for some products.

ADDITIONAL WORDING FOR FLAT BRUSHES „S, M, L und XL“
describes the thickness of the flat brush

S stands for VI. or the 4th thickness

M stands for X. or the 6th thickness

L stands for XV. or the 9th thickness

XL stands for XX. or the 12th thickness

MAESTRO

■■■■■

■■■■■

■■■■■

MIXBRISTLE

SYNTHETIC

Premium quality for professional painters, high paint pick up and high paint release ensure precise lines with a perfect finish. Beech wood handle, galvanized or stainless steel ferrule. Most of the brushes are fully epoxy sealed (Monoblock). For all paints, lacquers and varnishes, best suitable for solvent-based paints, lacquers and varnishes.

BASIC INFO PAINT ROLLERS

WALL PAINTS Every paint roller marked with this pictogram, is suitable for common mineral and dispersion paints.

LACQUERS In this category, all paint rollers are suitable for water-, synthetic resin- and acrylic-based lacquers.

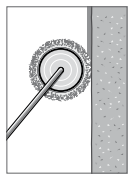

VARNISHES Every paint roller marked with this pictogram is suitable for all transparent and translucent coatings for timber.

OIL PAINTS Every paint roller marked with this pictogram is suitable for oils, oil-based paints and antirust primers.

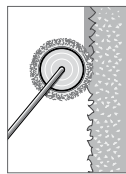

RATING There is a rating scale with squares at the above mentioned materials. The more squares are filled with gray colour, the better the product is suitable for the material.

SMOOTH SURFACE

Optimally suitable for smooth and also slightly rough surfaces

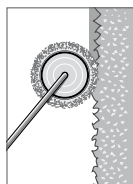

ROUGH SURFACE

Optimally suitable for slightly rough and also rough surfaces

PROLINE

POLYAMID

Professional quality rollers made of fine polyamide yarn. Very good paint pick up and paint release, enable painters to work more square meters with one roller. The PROLINE rollers don't splash, very weary and solvent resistant, produce smooth surface structure. The material is almost lint free, washing before using is recommended.

PROLINE P

Paint roller, padded 5mm, works also in corners, especially suitable for rough surfaces

BASIC INFO TAPES

CLOTH CARRIER

The carrier of these tapes is made of cloth

LOW NOISE / NO NOISE

This tape makes no or low noise during unwinding.

HORIZONTAL DOUBLE SIDE TAPE

This double sided tape is mainly used on horizontal surfaces, like carpet fixing.

VERTICAL DOUBLE SIDE TAPE

This double sided tape is used mainly on vertical surfaces, like to fix mirrors, hooks, etc..

ADHESION

Symbolizes the adhesion of the adhesive tape. The more bars, the better adhesion of the tape.

This comparison is only possible between the same product groups (for example: crepe masking tape, cloth tape, protection tapes, ...)

PERIOD OF APPLICATION

This pictogram shows the period of application. The number indicates the days, the tape has to be removed within this period of time. In this example, it has to be removed within one day.

TEMPERATURE RESISTANCE

The number on this pictogram means the maximum application temperature.

PERIOD OF APPLICATION: INDOOR

This pictogram shows the period of indoor application. The number indicates the days, the tape has to be removed within this period of time. In this example, it has to be removed within 30 days.

PERIOD OF APPLICATION: OUTDOOR

This pictogram shows the period of outdoor application. The number indicates the days, the tape has to be removed within this period of time. In this example, it has to be removed within 14 days. This symbol implicates also the UV- and weather resistance of the tape.

DURABILITY

This pictogram shows the average durability under normal weather conditions.

STRETCH

This pictogram indicates the elongation of the product.

VDE

This pictogram shows that this product is tested according to the VDE on the basis of relevant EU directives, laws, standards and special regulations.

NOTE

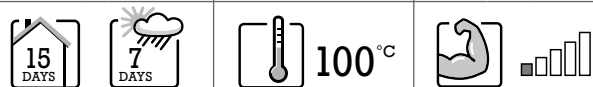

Every adhesive tape has to be removed immediately after the painting jobs. In best case, if the tape is still slightly wet. All technical data and recommendations are intended as a guide. The products have to be tested for their respective application. Damage and warranty claims can not be accepted for self-adhesive products.

CORE

Masking tapes for professionals and DIY users.

SENSI CORE

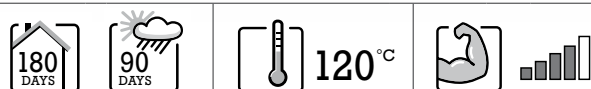

Painter's low tack fine line masking tape. Backing: Japanese Washi paper, adhesive: water-base acrylic. For delicate surfaces like wallpaper, paper, lacquered furniture..etc. Makes no damages on surfaces, residue-free removal, for clean and sharp painting lines.

Art. Nr.	Width x Length	Sales unit
45435 1	24 mm x 50 m	36
45436 8	30 mm x 50 m	32
45437 5	36 mm x 50 m	24
45439 9	48 mm x 50 m	24

SUNCORE PRO

Washi paper masking tape for professionals. Original from Japan, adhesive: water-base acrylic. Backing: Washi paper. Water repellent, solvent and UV resistant, for outdoor and indoor applications.

Art. Nr.	Width x Length	Sales unit

Art. Nr.	Quantity and Size	Length	Sales unit
45169 5	3 x 50 mm	50 m	8
45210 4	je 1 x 19, 30, 50 mm	50 m	12
45296 8	4 x 30 mm	50 m	8

GREEN CORE

Crepe masking tape with an average adhesion. For smooth surfaces. Single shrinked with description

Art. Nr.	Width x Length	Sales unit
45243 2	19 mm x 50 m	48
45245 6	25 mm x 50 m	36
45246 3	30 mm x 50 m	32
45247 0	38 mm x 50 m	24
45249 4	50 mm x 50 m	24

Bonus pack

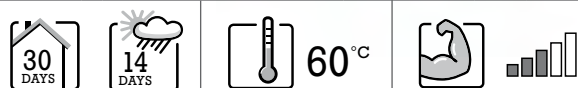

Art. Nr.	Quantity and Size	Length	Sales unit
45299 9	3 x 48 mm	50 m	8

MASK

Protection adhesive tapes made of robust and strong carrier but still easy to tear off. Very high adhesion, stick well also on rough surfaces. UV-resistant for plastering-, stucco-, and protection works indoor and outdoor.

GREEN MASK

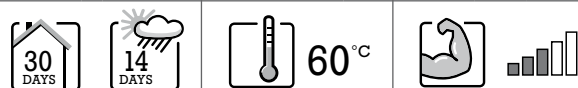

Durable and UV resistant PE flat yarn masking tape. For all the applications on construction sites and painting jobs. Easily tearable with hands, clean and straight cutting edge

Art. Nr.	Width x Length	Colour	Sales unit
45339 2	50 mm x 25 m		24

PVC MASK G

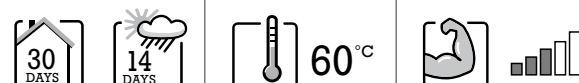

PVC protection tape, easy unwinding. Single shrinked with label

Art. Nr.	Width x Length	Colour	Sales unit
45379 8	50 mm x 33 m	white	18
45399 6	50 mm x 33 m	grey	18
45419 1	50 mm x 33 m	orange	18

PVC MASK Q

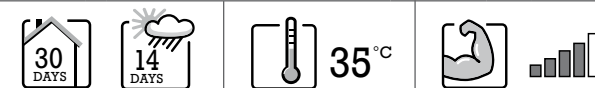

Embossed and water-repellent PVC protection tape. Single shrinked with label

Art. Nr.	Width x Length	Colour	Sales unit
45446 7	30 mm x 33 m	white	30
45449 8	50 mm x 33 m	white	18
45456 6	30 mm x 33 m	yellow	30
45457 3	38 mm x 33 m	yellow	24
45459 7	50 mm x 33 m	yellow	18

BLUE MASK

Very robust and UV-resistant cloth tape with PE-synthetic coating

Art. Nr.	Width x Length	Sales unit
45495 5	25 mm x 25 m	60
45496 2	30 mm x 25 m	60
45497 9	38 mm x 25 m	30
45499 3	50 mm x 25 m	30

X-WAY

Duct tapes for all applications. The X-way tapes stick perfectly on smooth and rough surfaces like: stones, concrete, wood and plastics. A problem solver for industry and in household. The tapes are with soft synthetic rubber adhesive, tear-proof, waterproof.

X-WAY STRONG

220my

Tear- and water-resistant duct tape for professionals. Backing thickness: 220my, extra strong adhesion.

Art. Nr.	Width x Length	Colour	Sales unit
45765 9	44 mm x 50 m	yellow	24

X-WAY PRO

195my

Duct tape. High adhesion. For professional applications, tear- and water-resistant

Art. Nr.	Width x Length	Colour	Sales unit
45768 0	48 mm x 50 m	black	24
45769 7	48 mm x 50 m	silver	24

X-WAY

165my

Duct tape for simple fixing jobs.

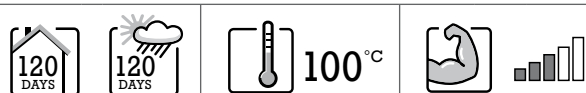

Art. Nr.	Width x Length	Colour	Sales unit
45778 9	48 mm x 10 m	black	36
45779 6	48 mm x 10 m	silver	36
45761 7	48 mm x 50 m	orange	24
45797 0	48 mm x 50 m	white	24
45798 7	48 mm x 50 m	black	24
45799 4	48 mm x 50 m	silver	24

MASKER

The combination of covering foil/paper and masking tapes for quick covering of large areas. Usable indoor and outdoor.

TARGA SUNCORE PRO

Masker of foil drop cloth and Washi paper tape

Art. Nr.	Width x Length	Sales unit
45891 5	55 cm x 33 m	40
45892 2	110 cm x 33 m	20
45894 6	140 cm x 33 m	20
45896 0	210 cm x 16 m	30
45897 7	270 cm x 16 m	28

TARGA BLUE CORE

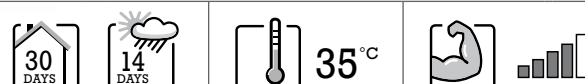

Masker of paper drop cloth and crepe masking tape

Art. Nr.	Width x Length	Sales unit
45842 7	18 cm x 20 m	24
45844 1	30 cm x 20 m	25

TARGA BLUE MASK

Masker of foil drop cloth and blue cloth tape

Art. Nr.	Width x Length	Adhesive edge width	Sales unit
45880 9	30 cm x 20 m	17 mm	60
45881 6	55 cm x 20 m	17 mm	60
45882 3	110 cm x 20 m	17 mm	30
45884 7	140 cm x 20 m	17 mm	30
45885 4	180 cm x 20 m	17 mm	30
45887 8	240 cm x 17 m	17 mm	30
45888 1	55 cm x 20 m	30 mm	60
45889 2	140 cm x 20 m	30 mm	30

TARGA BLUE CORE

Masker of foil drop cloth and crepe masking tape

Art. Nr.	Width x Length	Sales unit
45871 7	55 cm x 33 m	60
45872 4	110 cm x 33 m	20
45874 8	140 cm x 33 m	20
45876 2	210 cm x 20 m	20
45878 6	270 cm x 16 m	30

WALL TAPE

Tapes for repairing and reinforcement of drywalls.

DRYWALL TAPE

Self-adhesive glass fibre tape for repair works on drywalls.

Art. Nr.	Width x Length	Sales unit
45540 2	48 mm x 20 m	48
45544 0	48 mm x 90 m	24
45549 5	144 mm x 90 m	6

DRYWALL PATCH

Self-adhesive glass fiber mesh reinforced with aluminium plate, for repairing damaged drywalls and ceilings. 2-pc pack

Art. Nr.	Width x Length	Sales unit
45550 1	10 x 10 cm 2 pcs. SB	12
45551 8	15 x 15 cm 2pcs. SB	12

DRYWALL STRIP

Glass fibre fleece for repairing and reinforcement of drywalls

Art. Nr.	Width x Length	Sales unit
45568 6	50 mm x 25 m	48

WALL TAPE

Wall mending tape for covering of cracks and holes

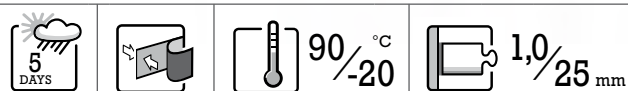

Art. Nr.	Width x Length	Sales unit
45569 3	50 mm x 10 m	36

DUO TAPE

High-quality and double-sided adhesive tapes, suitable for many different applications.

DUO TAPE FINGERLIFT

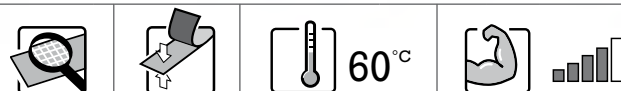

Double sided adhesive tape with finger-lift function for fixation of covering sheets and foils

Art. Nr.	Width x Length	Sales unit
45515 0	25 mm x 25 m	36
45517 4	35 mm x 25 m	24

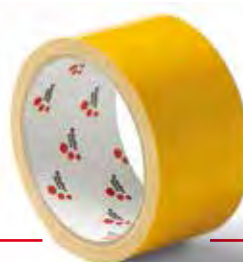

DUO TAPE COTTON

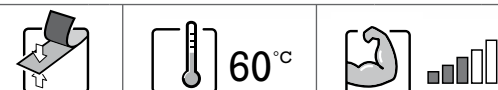

Double-sided adhesive tape with cotton/cloth carrier, easy to tear off, resistant to plasticizer

Art. Nr.	Width x Length	Sales unit
45609 6	50 mm x 5 m	36
45610 2	50 mm x 10 m	36
45612 6	50 mm x 25 m	36

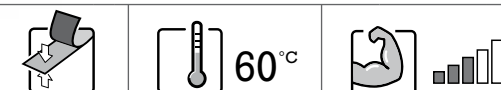

DUO TAPE PRO

Removable double-side adhesive tape with a PP-foil carrier for a temporary fixation

Art. Nr.	Width x Length	Sales unit
45640 9	50 mm x 10 m	36
45642 3	50 mm x 25 m	36

DUO TAPE

Double-sided adhesive tape with a PP- foil carrier for easy requirements

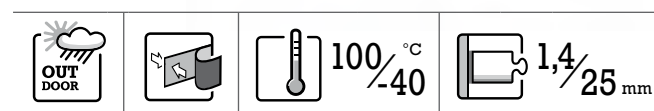

Art. Nr.	Width x Length	Sales unit
45679 9	50 mm x 5 m	36
45689 8	50 mm x 10 m	36

MONTAGE TAPE

Mounting tapes for mounting mirrors, hooks and plates.

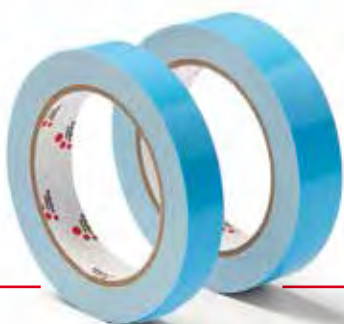

MOUNT TAPE

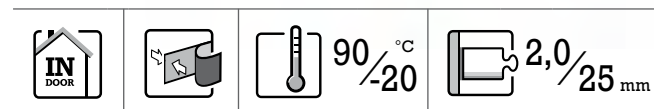

Double-sided adhesive PE-foam tape, very high shear force, resistant to solvent, humidity and heat

Art. Nr.	Width x Length	Colour	Sales unit
45620 1	12 mm x 5 m	black	30
45621 8	19 mm x 5 m	black	30

MONTAGE TAPE MIRROR

Double-sided adhesive PE-foam tape, high shear force, resistant to solvent, humidity and heat

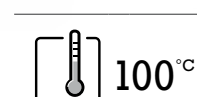

Art. Nr.	Width x Length	Colour	Sales unit
45631 7	19 mm x 5 m	white	30
45635 5	24 mm x 5 m	white	32

ALU TAPE

Self-adhesive aluminium tapes, used as sealing material in insulation areas and as well for industrial applications.

ALU TAPE PRO

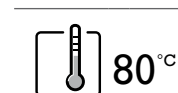

Aluminium adhesive tape for wrapping insulating materials, poor flammable, DIN 4102 B1

Art. Nr.	Width x Length	Sales unit
45589 1	50 mm x 10 m	36
45579 2	50 mm x 50 m	24

ALU TAPE PP

Metallized BOPP single sided tape to joint sealings and to bond insulating material

Art. Nr.	Width x Length	Sales unit
45599 0	50 mm x 50 m	32

BOX

Carton sealing tapes and tape dispensers

BOX TAPE PRO

60°C

PVC packaging tape, extra strong adhesion.

Art. Nr.	Width x Length	Colour	Sales unit
45749 9	50 mm x 66 m	transparent	36
45739 0	50 mm x 66 m	brown	36

BOX TAPE

110°C

BOPP packaging tape, low noise

Art. Nr.	Width x Length	Colour	Sales unit
45709 3	48 mm x 66 m	brown	36
45729 1	48 mm x 66 m	transparent	36

BOX TEC

Tape dispenser including 2 packaging tapes

Art. Nr.	Width x Length	Sales unit
44991 3	2 x 48 mm x 50 m	24

VOLT

PVC insulation tapes

VOLT

90°C

RoHS EN 60454-3-1

PVC insulation tape, each roll single shrunk with EAN-code

Art. Nr.	Width x Length	Colour	Sales unit
44000 2	15 mm x 10 m	red	10
44001 9	15 mm x 10 m	yellow	10
44002 6	15 mm x 10 m	blue	10

44056 9	50 mm x 10 m	grey	5

AIRSTOP

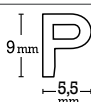

Self-adhesive sealing tapes for windows and doors.
Also well suitable for the sound insulation in indoor areas.

AIRSTOP P

6-8
YEARS

Sealing tape made of weather-resistant rubber profile, two colours: white and brown. Gap: 2 mm - 5 mm

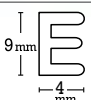

Art. Nr.	Length	Colour	Sales unit
44310 2	6 m	brown	20
44311 9	6 m	white	20

AIRSTOP E

6-8
YEARS

Sealing tape made of weather-resistant rubber profile, two colours: white and brown. Gap: 1 mm - 3.5 mm

Art. Nr.	Length	Colour	Sales unit
44300 3	6 m	white	24
44301 0	6 m	brown	24

AIRSTOP SOFT

1-2
YEARS

Sealing tape made of weather-resistant and noise absorbing PU-foam. Gap: 1 mm - 5 mm

Art. Nr.	Width x Length	Gap mm	Sales unit
44320 1	9 mm x 10 m	3,5	50
44322 5	9 mm x 10 m	5,5	50
44324 9	15 mm x 10 m	5,5	34

WARNING TAPES

These tapes are used for barriers and also for marking dangerous areas

STREET TAPE

Barrier and marking tape, carrier: LDPE, no adhesive, colour: red/white

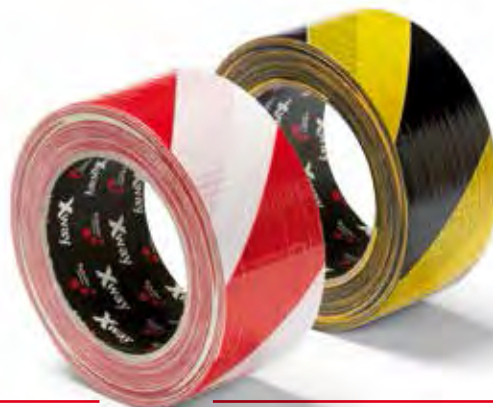

Art. Nr.	Width x Length	Thickness	Sales unit
45990 5	7 cm x 200 m	ca. 25 my	36
45996 7	8 cm x 500 m	ca. 35 my	12

WARNING TAPE

Self-adhesive warning tape made of a weather-resistant PVC. Colour: black / yellow

Art. Nr.	Width x Length	Sales unit
44980 7	50 mm x 33 m	36

X-WAY WARNING

Self-adhesive warning duct tape made of weather resistant PE carrier. Easy to tear off with hands

Art. Nr.	Width x Length	Colour	Sales unit
44981 4	50 mm x 33 m	white / red	24
44982 1	50 mm x 33 m	yellow / black	24

DROP CLOTH / GARBAGE BAGS

WEATHER RESISTANCE

This pictogram means weather resistance. The more bars one product has, the better weather resistance it has.

EYELETS DISTANCE

For tarpaulins with eyelets, the distance between the eyelets is indicated.

PROCESSING TEMPERATURE

This information defines the temperature range in which the product should be processed.

LDPE / PE-LD = Low density polyethylen
HDPE / PE-HD = High density polyethylen

The thickness is indicated at the foils with MY(1 my = 0,001 m m) and at the tarpaulins with g/m².

The S in the product description (e.g., S 90) defines the material thickness.

TARGET / TENNO

Drop cloth made of recyclable polyethylene in different sizes.

TARGET

Drop cloth sheet made of HDPE, transparent

Art. Nr.	Size	Area m ²	Thickness appx.	Sales unit
45800 7	4 x 5 m	20	7 my	20
45802 1	4 x 12,5 m	50	7 my	10
45805 2	4 x 5 m	20	10 my	20

TARGET

Drop cloth made of LDPE, translucent

Art. Nr.	Size	Area m ²	Thickness appx.	Sales unit
45806 9	4 x 12,5 m	50	18 my	10
45822 9	4 x 5 m	20	30 my	15
45810 6	4 x 5 m	20	50 my	10
45820 5	4 x 12,5 m	50	50 my	5
45819 9	3 x 4 m	12	100 my	10

TARGET

Drop cloth made of HDPE with additional D2W

Art. Nr.	Size	Area m ²	Thickness appx.	Sales unit
45804 5	2 x 25 m	50	7 my	10

Drop cloth film made of HDPE, half-meter roll, transparent

Art. Nr.	Size	Area m ²	Thickness appx.	Sales unit
45933 2	2 x 50 m	100	7 my	10

TARGET

Drop cloth made of LDPE, black

Art. Nr.	Size	Area m ²	Thickness appx.	Sales unit
45830 4	4 x 6 m	24	50 my	10
45836 6	4 x 6 m	24	75 my	5

TARGET S200

Drop cloth made of LDPE, translucent

Art. Nr.	Size	Area m ²	Thickness appx.	Sales unit
45816 8	3 x 4 m	12	200 my	4
45817 5	4 x 5 m	20	200 my	4

TENNO 2x50 S10

Drop cloth made of HDPE, one-meter roll, transparent

Art. Nr.	Size	Area m ²	Thickness appx.	Sales unit
45907 3	2 x 50 m	100	10 my	1

TENNO 2x50 S15

Drop cloth made of LDPE, transparent

Art. Nr.	Size	Area m ²	Thickness appx.	Sales unit
45903 5	2 x 50 m	100	15 my	1

TENNO 2x50

Drop cloth made of LDPE, one-meter roll, translucent

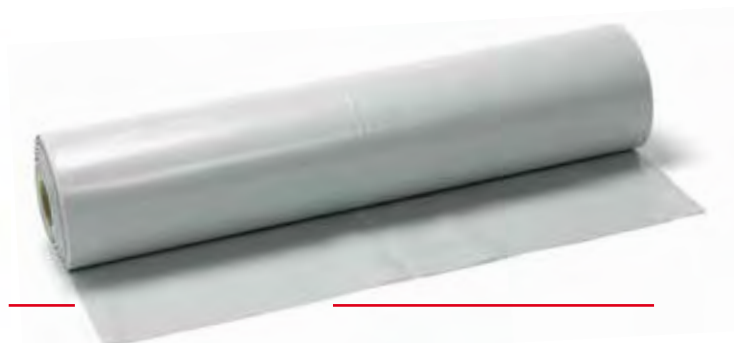

Art. Nr.	Size	Area m ²	Thickness appx.	Sales unit
45905 9	2 x 50 m	100	25 my	1
45910 3	2 x 50 m	100	45 my	1

45958 5	1 x 200	200	60	1

TAIGA TEC

Covering machine inclusive a 150 mm blade, useable for tapes with width of 19-25 mm

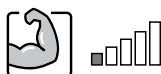

Art. Nr.	Sales unit
45970 7	1

PROTECTION MATERIAL

Painter's fleece, self-adhesive protection film and self-adhesive Kraft paper in different sizes, colours and thickness for surface protection.

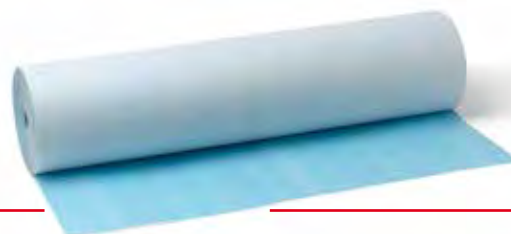

PAPER PROTECT

Kraft paper fully coated with special adhesive. Can be applied to almost all surfaces, leaves no damages, residue-free removal

Art. Nr.	Size	Sales unit
46003 1	150 mm x 50 m	12
46005 5	300 mm x 50 m	9

TENDA TACK PRO

160g/m²

Self-adhesive, diffusible and liquid-proof fleece for moist-sensitive surfaces. Vapour permeability: 70g/m²/24h

Art. Nr.	Size	Area m ²	Thickness g / m ²	Sales unit
46395 7	1 x 50 m	50	160	1

FOLI PROTECT

28
DAYS

35°C
-5

Glass protection film, self-adhesive, recyclable protection film made of polyethylene (ca. 50 my) for painters and plasterers indoor and outdoor usage

Art. Nr.	Size	Colour	Sales unit
46402 2	25 cm x 100 m	blue	24
46403 9	50 cm x 100 m	blue	12
46405 3	100 cm x 100 m	blue	6
46413 8	50 cm x 100 m	transparent	12

TENDA TACK

self-adhesive and liquid-proof fleece for dry surfaces against moisture and dirt

Art. Nr.	Size	Area m ²	Thickness g / m ²	Sales unit
46397 1	1 x 50 m	50	160	1
46398 8	1 x 25 m	25	120	1

TENDA

Covering fleece made of 100% recycled yarn (cotton- and synthetic yarn), good absorption and water-proof, anti-slip film

Art. Nr.	Size	Area m ²	Thickness g / m ²	Sales unit
45980 6	1 x 10 m	10	220	8
45982 0	1 x 25 m	25	220	1
45985 1	1 x 50 m	50	220	1

STARDUST

Dust protection door made of a dust-proof polypropylene fleece with a high-quality zipper which can be opened from both sides

Art. Nr.	Size cm	Sales unit
42120 9	110 x 220	1

STARDUST PE

Dust protection door made of transparent polyethylene foil with a high-quality zipper can be opened from both sides

Art. Nr.	Size cm	Sales unit
42121 6	112 x 220	10

SATO

Standard and heavy duty garbage bags.
Excellent welding and good tear-resistance.

SATO LITE 25

Garbage bag, 40 pcs/roll , orange

Art. Nr.	Size liters	Size cm	Thickness appx.	Sales unit
46100 7	25	45 x 60	7 my	25

SATO LITE 60

Garbage bag, 20 pcs/roll, yellow

Art. Nr.	Size liters	Size cm	Thickness appx.	Sales unit
46105 2	60	60 x 72	7 my	20

SATO 60

Garbage bag, 20 pcs/roll, white

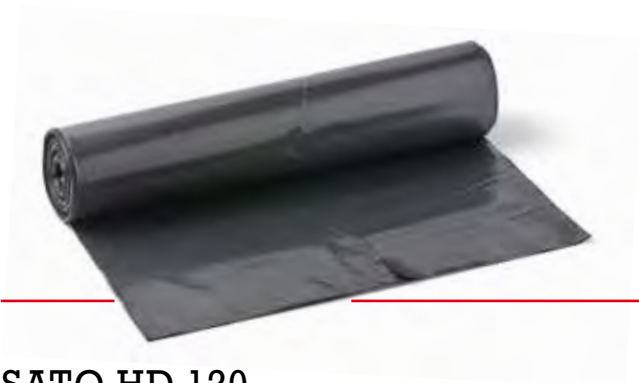

Art. Nr.	Size liters	Size cm	Thickness appx.	Sales unit
46106 9	60	63 x 78	15 my	20

SATO 110

Garbage bag with closing strip, 10pcs/roll, light blue

Art. Nr.	Size liters	Size cm	Thickness appx.	Sales unit
46110 6	110	70 x 100	30 my	20

SATO HD 120

Garbage bag ,10 pcs/roll

Art. Nr.	Size liters	Size cm	Thickness appx.	Sales unit
46117 5	120	70 x 110	80 my	10

SATO 120

Garbage bag,10 pcs/roll, blue

46545 6	8 x 10	1
46549 4	10 x 12	1

BASIC INFO TOOLS

CUTTING OF BLADES

Sharper blades due to a double cut.

STEEL QUALITY

The more bars one product has, the better the steel quality.

STAINLESS STEEL

This means that the product is made of stainless steel.

FOR LOW VISCOSITY

Product with this pictogram is to mix materials of low viscosity materials.

FOR HIGH VISCOSITY

Product with this pictogram is to mix materials of high viscosity materials.

FOR MIXTURE WITH SOLIDS

This product is used to mix mixtures with solids.

POWER RATIO OF CAULKING GUN

This symbol indicates the power ratio.

The additional numbers next to the symbol indicates the power transmission.

TEAR RESISTANCE OF CLEANING PAPERS

This cleaning paper is very robust and durable

PERFORATED PAPER

This paper is extra perforated for an easy tear-off

HIGHLY ABSORBENT PAPER

This pictogram indicates that it is a very absorbent cleaning paper

ABBREVIATION OF MIXER AND MIXER PADDLES

AM for glues

PM for paints

MM for plaster

SAMURAI

High quality snap-off knives and blades for excellent cutting experience.

SAMURAI BLACK 2K 25

Snap-off knife with 2-component grip, 25 mm, black blade, Screw-lock

Art. Nr.	Blade width mm	Blade thickness mm	Sales unit
30586 8	25	0,7	10

SAMURAI BLACK 2K 18

Snap-off knife with 2-component grip, 18 mm, black blade, Auto-lock

Art. Nr.	Blade width mm	Blade thickness mm	Sales unit
30582 0	18	0,5	10

Viscose tiling sponge for professionals

Art. Nr.	Size mm	Sponge thickness mm	Sales unit
40820 0	150 x 110	40	10

MIXERS

For mixing materials of different viscosity. M14 thread paddles are perfectly suitable for the Schuller EASYMIX series, paddles with hexagonal shaft are compatible with common power drills.

SPIN MANO

Paint mixing stick, plastic

Art. Nr.	Length cm	Sales unit
40542 1	28	50

SPIN PM

Spiral mixing paddle made of galvanized steel for the EASYMIX serie with M14 Thread. The mixing effect is from the top to the bottom

Art. Nr.	Diameter mm	Length cm	Sales unit
48140 1	120	60	2

SPIN AM

Mortar mixing paddle with hexagonal shaft. The mixing effect is from the top to the bottom

Art. Nr.	Diameter mm	Length cm	Sales unit
48210 1	85	40	8
48220 0	105	59	10

SPIN PM

Paint mixing paddle with hexagonal shaft. The mixing effect is from the top to the bottom

Art. Nr.	Diameter mm	Length cm	Sales unit
48366 5	60	40	6
48368 9	80	40	6
48370 2	100	59	4
48372 6	120	59	4

SPIN MM

Mortar mixing paddle made of galvanized steel for the EASYMIX serie with a M14 tool connection. The mixing effect is from the bottom to the top

Art. Nr.	Diameter mm	Length cm	Sales unit
48150 0	140	60	2

EASYMIX SX30

2 gear mixer with 1200 watts and adjustable speed control for mixing materials with low viscosity, inclusive a spiral mixing paddle (120 mm diameter) made of galvanized steel, M14 thread. The mixing effect is from the top to the bottom.

Art. Nr.		Sales unit
02090	7 0-760 U/min.	2

EASYMIX SX60

Robust 2 gear mixer with 1600 watts and adjustable speed control for mixing materials of high viscosity, inclusive a mortar mixing paddle (140 mm diameter) made of galvanized steel and M14 thread. The mixing effect is from the top to the bottom.

Art. Nr.		Sales unit
02095	2 0-660 U/min.	2

MEASURING INSTRUMENTS

Measuring tapes, rulers, spirit levels and chalk line.

GO PRO

Measuring tape, non-slip 2 component case, belt clip, stop-button, calibration class 2

Art. Nr.	Length x Size	Sales unit
31625 3	3 m x 19 mm	6
31645 1	5 m x 25 mm	6
31655 0	8 m x 25 mm	6

GO

Measuring tape, stop button, belt clip, hanger, calibration class 2

Art. Nr.	Length x Size	Sales unit
31600 0	3 m x 16 mm	12
31605 5	5 m x 19 mm	12
31607 9	7,5 m x 25 mm	12

GO AUTOSTOP

Measuring tape, belt clip, auto-stopper, retraction button, calibration class 2

Art. Nr.	Length x Size	Sales unit
31675 8	5 m x 19 mm	6
31677 2	7,5 m x 25 mm	6

GO TIMBER

Foldable ruler made of wood

Art. Nr.	Length	Sales unit
31500 3	2 m	10

GO LINER

Painters ruler made of fine textured wood, free of knots

Art. Nr.	Length	Sales unit
43530 5	1 m	10

SPIRIT MAGNET

Spirit level with magnet, 3 UV-resistant vials--vertical, horizontal and 45°. Accuracy: 0,5mm/m. Shock absorbing rubber end cups. 2 grips

Art. Nr.	Length	Sales unit
31112 2	60 cm	30
31113 9	80 cm	30
31114 6	100 cm	30
31115 3	120 cm	20
31118 0	200 cm	20

PUNCH

Chalk line, aluminium case, reel

Art. Nr.	Length	Sales unit
30670 4	30 m	12
30671 1	1 Stk. SB	12

Calk refills, red and blue, in dispenser on a hanger card

Art. Nr.	Colour	Quantity	Sales unit
30681 0	red	50 g	6
30682 7	blue	50 g	6

BASIC INFO GLOVES

FOR CONSTRUCTION WORKS

These gloves are suitable for building-, road- and construction works

FOR PAINTINGS JOBS

These gloves are especially suitable for painters.

FOR FINE MECHANIC JOBS

These gloves are mainly used by mechanics and installers. The grip safety, a high sense of touch and the protection are the main characteristics

FOR GARDENING JOBS

This group unites all gloves, which are mainly used for gardening jobs

FOR SPECIAL REQUIREMENTS

The test tube symbol denotes gloves that meet specific requirements (e.g., solvent resistant, fully dipped, etc.)

FOR LOW TEMPERATURES

Gloves with this pictogram keep hands, fingers and even the wrist warm at low temperatures

GLOVES FOR NO SPECIAL REQUIREMENTS

Category I includes exclusively the following minimal risks:

Superficial mechanical injury, contact with aggressive detergents or prolonged contact with water.

Contact with hot surfaces not exceeding 50°C

Damage to the eyes due to exposure to sunlight, atmospheric conditions that are not of an extreme nature

GLOVES FOR SPECIFIC REQUIREMENTS

Includes risks other than those listed in categories I and III.

GLOVES FOR SPECIFIC REQUIREMENTS

Includes exclusively the risks that may cause very serious consequences such as death or irreversible damage to health relating to the following: Substances and mixtures which are hazardous to health, harmful biological agents, ionising radiation, cuts by hand held chainsaws, harmful noise.

PROTECTION GLOVES FOR MECHANICAL RISKS

The following parameters are tested:

Abrasion resistance (Level 0-4), blade cut resistance (Level 0-5), tear resistance (Level 0-4), puncture resistance (Level 0-4).

The achieved levels are indicated in this order under the pictogram.

Level „0“ means that the glove has not reached level 1. The letter „X“ instead of a number indicates that the glove has not been tested for the appropriate risk. The higher the value, the better the test result.

For example EN388 - 4121D: Abrasion resistance 4, blade cut resistance (coupe) 1, tear resistance 2, puncture resistance 1, blade cut resistance [TDM] 1

PROTECTION GLOVES AGAINST LOW TEMPERATURES

The following parameters are tested:

Convective cold (class 0-4), contact cold (class 0-4), water penetration (class 0/1). The achieved levels are indicated in this order under the pictogram. Step „0“ means that the glove has not reached level 1. The label „X“ instead of a number indicates that the glove has not been tested for the appropriate risk. The higher the value, the better the test result.

For example EN511 - X21: Convective cold X, contact cold 2, water penetration 1

MEDICAL GLOVES FOR DISPOSABLE USE

This standard specific indicates the requirements and the test methods for the physical characteristics of medical gloves for single use. This ensures the adequate protection against contamination during the usage

GLOVES FOR THE PROTECTION OF CHEMICALS AND MICROORGANISMS

This standard specific indicates the characteristics of gloves to protect the user from chemicals or microorganisms

ALLSTAR

Seamless fine-knitted gloves with different coatings, perfect fitting, superb tactile sensitivity for montage workers, resistant to oil and fat.

ALLSTAR DUNE

Gloves for general purposes with nitrile coating and sand-finish

BASIC INFO PROTECTION WEAR

EN
166

EYE PROTECTION

The whole personal eye protection equipment is standardized in the EN166. According to this standard, numbers and letters on the viewing glasses and the carrying frame provides information about the protection level, mechanical strength, resistance to light arcs and the fogging of the eye protection

RESPIRATORY PROTECTIVE DEVICES

FFP1: protects against dusts in concentrations up to 4x MAC, no protection against carcinogenic and radioactive substances as well as airborne biological substances of risk groups 2 and 3 as well as enzymes. Protection against non toxic dusts from gypsum, graphite, cement, plaster, pollen, metallic file dust

EN
149

FFP2: protects against dusts in concentrations up to 10x MAC, no protection against radioactive substances and airborne biological substances of risk group 3 as well as enzymes. Protection against middle toxic dusts from asbestos, chromium, copper, titanium, hardwood, welding and soldering

FFP3: protects against dusts in concentrations up to 30x MAC.

The maximum allowable concentration indicates the concentration from a substance that is acute or chronic harmful for the health in general are not expected. The limits are based on existing occupational health and toxicological findings. Protection against toxic dusts from beryllium, cadmium, cobalt, nickel, radium, radioactive particles

EN
352-1

CAPSULE HEARING PROTECTION

The whole hearing protection equipment is standardized in the EN352. This standard specifies indicates the insulating values, which get deducted from the noise level to don't exceed the maximum permitted sound level

VIEW

Protective eyewear products.

CLEARVIEW

CE EN
166:2001

Safety glasses with soft temple tips for wearer's comfort protecting against flying particles

Art. Nr.		Sales unit

BASIC INFO ABRASIVE MATERIAL

WOOD

Abrasive paper which is suitable for any wood works

CHAIR

Abrasive paper which is suitable for lacquered surfaces

METAL

Abrasive paper which is used to roughen and sanding metal

CAR, PRIMER

Abrasive paper which is suitable for primer works and car body works

CAR, FINISH

Abrasive paper for fine lacquer works. For example: finishing.

WATER

Abrasive paper which is also suitable for working with water

DRYWALL

Abrasive paper which is used on drywalls

WALL

Abrasive paper for rough surfaces

FLEXIBLE

Abrasive paper on a very light and highly flexible carrier

CLOTH

The abrasive paper is reinforced due to a cloth carrier

CLOSED COATED

In case of a closed coating, the abrasive grains lie very close to each other on the grain carrier. Abrasive material which has a closed coating, is mainly used for sanding hard timber and similar materials

SEMI-OPEN COATED

In case of a semi-open coating, the abrasive grains lie apart so that 70 - 80 % of the carrier is covered with the abrasive grains. Abrasive material which is semi-open coated, is mainly used to sand for example lacquers, plastics and metals and get used generally when a higher material removal is required

OPEN COATED

In case of an open coating, the abrasive grains lie far apart so that only the half of the grain carrier is covered with abrasive grains. Abrasive material, which has an open coating, is mainly used to sand softwood and get generally used when working with a high material removal are required

EASYROLL

Sandpaper roll for dry sanding applications

EASYROLL PRO

High quality sand paper. 115 mm x 4,5 m. Latex paper 220 g/m². Semi open coating. Grain: Aluminum oxide

BASIC INFO PRISMA SPRAY

STORAGE -10°C UP TO +25 °C

The product has to be stored on a dry and cool place. (-10 up to +25°C and with a maximum air moisture of 60 %)

SHAKING

Before use, the can has to be shaken minimum 2-3 min

SPRAY DISTANCE 25-30 CM BY 15-25°C

This pictogram indicates the ideal spray distance of 25 to 30 cm and the optimum can/content temperature of 15 to 25 ° C.

SPRAY APPLICATION

Several thin layers must be applied at a time interval of ≥ 10 minutes to achieve a perfect result

TEMPERATURE RESISTANCE

Indicates the maximum temperature resistance over a longer period

INDOOR

The product is only suitable for the indoor usage and thus not UV-resistant, weather resistant, etc.

OUTDOOR

The product is suitable for indoor and outdoor usage. The product has a certain weather- and UV-resistance

ATTENTION: The representation of the colours in the print matches the real colour values only nearly

PRISMA COLOR

Quickly drying acrylic lacquer which is available in various RAL-Colours. With a high covering- and shining strength for DIY and professionals in indoor and outdoor areas. Usable for many different requirements with an automatical valve cleaning.

PRISMA SIGNAL

This group unifies the typical marking sprays. They are mainly used in civil engineering, building construction, road construction and forestry.

PRISMA EFFECT

All decorative sprays with a certain effect are united here. The sprays have also an automatic valve cleaning. Suitable for all materials such as metal, wood, glass, stone, cardboard and many plastics, but not on polystyrene.

PRISMA TECH

All technical sprays with an special application are here united. The technical usage is here in the foreground and not the decorative purpose.

PRISMA AUTO

Special development of paint spray for auto body work shops, very good adhesion, elastic. Resistant to weather, solvents, scratch and petrol (Benzin). No resistance to Acetone. No yellowing, no colour change after application.

PRISMA SIGNAL

Marking sprays for civil engineering, building construction, road construction and forestry. Ideal for marking or outlining spaces, areas, corridors in jobsites, workshops, parking lots and sport facilities.

PRISMA SIGNAL

360°

~150
m

500
ml

Weatherproof marking spray with firm adhesion to many surfaces. Resistant to rubbing. The safety cap prevents an accidental spraying. The marking spray can be used in every position
