

HOW TO USE ...

EASYSAND DUO600

02062

1 Versatile use

600 watt wall and ceiling grinder with exchangeable head for large surfaces and edges. The machine sucks itself to the surface by means of a vacuum and enables fatigue-free working.

2 Plugging in

After careful assembly, the EASYSAND DUO can be plugged into any commercially available hoover. The vacuum cleaner sucks up the dust completely.

3 Machining large areas

The round head is ideal for sanding large surfaces. The triangular head is perfect for hard-to-reach places such as corners and edges.

4 Grinding head change

By operating the locking lever, the grinding head can easily be removed and replaced.

5 Scope of delivery

Our EASYSAND DUO600 is delivered in a handy case. The device is quickly ready for use anywhere. Eh'klar!

6 Spare Parts

Replacement pads, carbon, motor cover, on/off switch and speed controller are available under item number 9928..
