

HOW TO USE ...

SENSI CORE

45435 (24mmx50m), 45436 (30mmx50m), 45437 (36mmx50m), 45439 (48mmx50m)

You don't want to damage your surface? Then SENSI CORE is the right adhesive tape for your application.

The thin, smooth special paper ensures sharp-edged-color edges and is water-repellent.

The special low adhesive strength is particularly suitable for sensitive substrates and can therefore be removed without leaving any residue.

Suitable for substrates such as paper, freshly painted or coated surfaces. Can be used indoors and outdoors. Eh'klar!
