GREEN MASK

(PE flat yarn masking tape.-Nr.: 45339)

Characteristics:

This protection tape is made of high quality PE-fabric backing, coated with special acrylic adhesive.

- excellent adhesion and high tack on different surfaces
- can be removed without residue and repositioned several times
- strong, non-stretchable carrier, can be used for long distance and easy to peel off without breaking.
- Easily cut by hands, clean and straight cutting edge.

Product data adhesive tape:

Adhesive	Acrylic adhesive
Backing	Polyethylen fabric
Colour	Green
Adhesive tape width	50 mm
Heat resistance (°C)	+60
Adhesion to steel (N/cm)	4,46 +/- 10%
Tear resistance	52,1%
Tensil strength (N/cm)	29,1
Elongation at break (%)	10,0%
Total thickness (mm)	0,15
UV-resistance	Inside: 30 days, Outside: 10 days

Applications:

- Indoor- and Outdoor – surface masking, surface-protection (such as skirting boards, door- and window frames, window sills, walls and floors etc.) and for painting and plastering (Stucco) work.
- It can be removed from most surfaces without residue up to maximum of 10 days outside and maximum 30 days inside.
- Increased caution is required for soft and porous surfaces (such as softwood, stone, wallpaper, paint), weathered PVC surfaces and surfaces containing plasticisers
- It is recommended to make a test on small area prior to applying on large surfaces.
